First Term 2024 / 2025

Put (✓) or (X) :

- 1 Identifying the problem is the first step in the steps of discovering and solving problems ()
- 2 One of the proposed solutions to solve the problem of slow computer is to check the Wi-Fi connection. ()
- 3 Studying the proposed solutions is the second step in the steps of discovering and solving problems. ()
- 4 checking the Wi-Fi connection is one of the proposed solutions in the event of a slow search engine. ()
- 5 One of the possible solutions to the Internet outage is to change the Ethernet cable ()
- 6 You can use with your teacher or a family member if you do not reach a solution to the problem. ()
- 7 The scanner is used to enter images into the computer. ()
- 8 To organize your different files, you must use folders. ()
- 9 Flash memory is one of the ways to save information. ()
- 10 Using files helps you organize your information. ()
- 11 To organize data and information, you must save them inside files. ()
- 12 The main folder can contain one or more subfolders. ()
- 13 Hackers use your personal information such as your name, address, and date of birth to break into your computer system. ()
- 14 One way to keep your personal identification information secure is to limit the personal information you share online. ()
- 15 Hacking is using your email address and password to send a virus to all the email addresses in your email. ()
- 16 It is preferable to subscribe to websites that ask you for a lot of personal information. ()
- 17 A hacker can use an adult's bank account number to steal their money ()
- 18 Use weak passwords to keep your personal identification information safe. ()

- 19 You can use a flash memory to back up and save your files. ()
- 20 Some applications and software automatically create backup copies of files. ()
- 21 You can use an external hard drive to back up and save your files. ()
- 22 Using a flash memory and an external hard drive is a safer way to save and copy files. ()
- 23 An external hard drive is one of the Accessories devices used to store files securely. ()
- 24 You must back up important files to prevent the possibility of losing them on your device ()
- 25 Phishing is one of the ways hackers get your password. ()
- 26 A strong password management program creates weak passwords. ()
- 27 A message was sent that you won a prize, so you must send your bank account to receive it. ()
- 28 Multi-factor authentication is providing one way to identify yourself. ()
- 29 Email can used to phishing. ()
- 30 One of the methods of multi-factor authentication is to log into your accounts from a device other than your device. ()
- 31 Scareware includes fake warnings about a problem with the computer ()
- 32 One of the methods of online Scam is offering fake rewards or prizes. ()
- 33 Scam websites try to breach your privacy by obtaining your personal information ()
- 34 To avoid Scam websites, you should search for them online to ensure their authenticity. ()
- 35 To avoid Scam websites, you should check the Uniform Resource Locator (URL). ()
- 36 A trusted website has spelling errors. ()
- 37 Copyright law protects both printed and digital content. ()
- 38 When using copyrighted images, the link to the original copy of the image must not be mentioned. ()
- 39 The international copyright symbol is the letter C with a circle around it ©. ()

- 40 Creative works protected by copyright are works that are classified as public domain and facts ()
- 41 Creative Commons is when the owner of the creative work gives permission to reuse his work at any time ()
- 42 Website copyrights usually appear at the bottom of the home page. ()
- 43 To access the site, type the Uniform Resource Locator (URL) in the search engine. ()
- 44 To get reliable digital sites, it is preferable to follow the sites recommended by your teacher, such as the Egyptian Knowledge Bank. ()
- 45 Opinions result from research and observation and can be proven ()
- 46 You should use multiple sources during your research to ensure that you know all the important facts. ()
- 47 We use charts, graphs and maps to obtain measurable facts. ()
- 48 Facts are based on a person's points of view and experiences. ()

Choose the correct answers:

1- A cable connects computers to the router.

- a. Ethernet b. USB c. flash memory d. Drones

2- The drive is like a hard disk drive, but it works faster

- a. external hard disk b. screen c. keyboard d. Drones

3- To solve the problem of not having enough storage space for graphics on the computer,

- A- Delete some programs B- Download more programs
C- Shut down the computer D- Download the Word program

4- The device connects the computer to the Internet

- a. - Router B- Flash Memory C- Microphone D- Gigahertz

- 5- The unit of measurement is used to measure the number of cycles executed by the central processing unit per second.
- A- Gigahertz GHz B- Bit C- Megabit per second Mbps D- Gigabyte GB
- 6- The is considered the smallest unit of data
- A- Bit B- Byte C- Megabyte MB D- Terabyte TB
- 7- To solve the problem of not being able to store files on the computer, you can
- A- Move old files to an external drive B- Move the computer to another location
C- Connect the computer to the router D- Connect the computer to the Internet
- 8- The unit of measurement is used to measure the speed of the network or connection to the Internet.
- A- Megabits per second Mbps B- Gigabyte GB C- Gigahertz GHz D- Bit
- 9- connects computers to each other to exchange important information and data.
- A- Digital footprint B- Computer networks C- Word processor
D- Spreadsheets
- 10- When you connect a computer to another computer in the same place, you have
- A- Scanner B- Local area network LAN C- CPU D- ISP
- 11-network connects computers and their users around the world.
- A- Local B- Internet C- Closed D- Digital footprint
- 12- network is limited to use by people who have a work relationship in a specific institution.
- A- World Wide Web WWW B- Intranet C- Computer Applications
D- Operating Programs
- 13- The school computer lab network is a computer network
- A-opened network B- closed network C- World Wide Web WWW D- Intranet
- 14- The Egyptian Knowledge Bank EKB website is available on for free to all Egyptians.

A- Various Applications B- World Wide Web C- Presentations D- Spreadsheets

15- A device connects a computer to an Internet Service Provider (ISP)

A-Bluetooth B-Router C-Open networks D-Central Processing Unit (CPU)

16- is part of the Internet.

A-Closed computer network
C-Spam

B-World Wide Web (WWW)
D-Router

17- Banks use networks to share their information.

A-Opened networks
C-Closed networks

B-Social networking sites
D-Graphic programs

18- We use to communicate with each other.

A-Scanner B-Mouse C-Computer networks D-Printer

19- gives people with disabilities more independence and increases their self-confidence.

A-Printers B-Router C-Computer networks D-Camera

20- uses screen reader programs to do their homework online.

A-People with motor disabilities
C-Visual impaired

B-Hearing impaired
D-Movement impaired

21- programs help the visually impaired write research papers on the computer.

A- Printers B- Scanner C- Screen readers D- Microphone

22- Online shopping is called....

A- Search B- Router C- E- commerce D- Speakers

23- Wi-Fi allows you to control devices connected to the Internet.

A-Email B-Search Engines C-Internet of Things D-Social Media

24- To transfer data between wireless mobile devices, network technology is used.

A-Scanner B-Pointer C-Bluetooth D-Control Panel

25- The last step in the steps of discovering and solving problems

A- Identify the problem.
B- Study the possible solutions to the problem.
C- Find the appropriate solution to the problem.
D- Ask help from your teacher or a family member.

- 26- One of the suggested solutions in case the search engine is slow
- A- Check the Wi-Fi connection
B- Buy a screen
C- Change the keyboard
D- Buy a printer
- 27- One of the ways to save and store information
- A- Keyboard B- Printer C- Screen D- Flash memory.
- 28- The folder on the computer can contain
- A- Image and video files B- Paper books
C- Paper letters D- Pens and printed pictures
- 29- Sharing information over the Internet is considered.
- A- Less secure. B- More secure C- More accurate D More reliable
- 30- To add the values in columns A, B, C in row 3, we write the formula
- A- = A1+B2+C3 B- = A3+B3+C3 C- = A1+B2 D- = A1+A2+A3
- 31- Sharing information over the intranet is considered
- A- Less secure. B- More secure C- Less reliable D- Less accurate
- 32- To add cell A8 and cell B8, write the formula
- A- = A8+B8 B- = A8-B8 C- = A8+B9 D- = C8+B8
- 33- helps to perform mathematical operations.
- A- Paint program B- Excel program
C- Virus program D- Operating system program
- 34- To create a simple formula within Excel program, you must start by typing the sign in the cell.
- A - & B- \$ C- @ D- =
- 35- The folder on the computer can contain
- A- Image and video files B- Paper books
C- Paper letters D- Pens and printed pictures
- 36- One of the ways to save and store information is using
- A- Keyboard B- Printer. C- Screen D- Flash memory
- 37- helps to perform mathematical operations.
- A- Paint program B- Excel program

C- Virus program

D- Operating system program

38- The last step in the steps of Troubleshooting to help with computer problems

A- Identifying the problem.

B- Go through your potential solutions to the problem.

C- Think about and plan different ways you might solve the problem.

D- ask your teacher or a member of your family for help.

39- All of the following methods enable you to keep your personal information safe except

A- Limit the personal information you share online.

B- Use strong passwords that contain letters, numbers and symbols.

C- Use an antivirus.

D- Share your name and address with all the sites that request it.

40- A hacker can send a virus to all the email addresses in your email if he can find out

A- Your email address and password

B- Your bank account number

C- Your date of birth

D- Your friends' addresses

41- is one of the Accessories devices used to store files securely.

A- External hard disk.

B- Keyboard.

C- Mouse.

D- Monitor.

42- Flash memory is used

A- Print files.

B- Back up your files.

C- Photocopy files.

D- Delete files.

43- Multi-Factor authentication (MFA) is

A- Providing one way to identify yourself.

B- Providing at least two ways to identify yourself.

C- Not identifying yourself

D- Providing a weak password

44- Phishing is

A- Sending a text message.

B- Sending a message via email and social media.

C- Calling by phone.

D- Spying on calls.

- 45- Scareware sites**
- A- They contain fake warnings about a problem with your computer.
 - B- Sites that offer you a fake prize.
 - C- Shopping sites.
 - D- Trusted sites.
- 46- If you fall victim to a Scam website**
- A- You should not tell anyone about it.
 - B- You should report the matter.
 - C- You should deal with them more.
 - D- You should trust the site
- 47- Public Domain and Creative Commons**
- A- They are sources on the Internet that are not covered copyright.
 - B- They cannot be used without the permission of their owner.
 - C- They are subject to copyright.
 - D- They take the international copyright symbol.
- 48- All of the following works are not covered by copyright except.....**
- A- Works that are classified as public domain.
 - B- Facts.
 - C- Creative works whose owner has died 50 years ago.
 - D- Works that have obtained the international copyright symbol.
- 49- Facts**
- A- They result from research and observation, and can be proven.
 - B- They cannot be proven.
 - C- Based on the person's views and experiences.
 - D- Cannot be proven
- 50- Opinions**
- A- Cannot be debated.
 - B- Result from research and observation and can be proven.
 - C- Based on the person's views and experiences.
 - D- Can be proven

Choose the correct answers:

1- A cable connects computers to the router.

- a. Ethernet b. USB c. flash memory d. Drones

2- The drive is like a hard disk drive, but it works faster

- a. external hard disk b. screen c. keyboard d. Drones

3- To solve the problem of not having enough storage space for graphics on the computer,

A- Delete some programs

B- Download more programs

C- Shut down the computer

D- Download the Word program

4- The device connects the computer to the Internet

- A. - Router B- Flash Memory C- Microphone D- Gigahertz

5- The unit of measurement is used to measure the number of cycles executed by the central processing unit per second.

- A- Gigahertz GHz B- Bit C- Megabit per second Mbps D- Gigabyte GB

6- The is considered the smallest unit of data

- A- Bit B- Byte C- Megabyte MB D- Terabyte TB

7- To solve the problem of not being able to store files on the computer, you can

- A- Move old files to an external drive B- Move the computer to another location
C- Connect the computer to the router D- Connect the computer to the Internet

8- The unit of measurement is used to measure the speed of the network or connection to the Internet.

- A- Megabits per second Mbps B- Gigabyte GB C- Gigahertz GHz D- Bit

9- connects computers to each other to exchange important information and data.

- A- Digital footprint B- Computer networks C- Word processor
D- Spreadsheets

10- When you connect a computer to another computer in the same place, you have

- A- Scanner B- Local area network LAN c- CPU D- ISP

11-network connects computers and their users around the world.

- A- Local B- Internet C- Closed D- Digital footprint

12- network is limited to use by people who have a work relationship in a specific institution.

- A- World Wide Web WWW B- Intranet C- Computer Applications
D- Operating Programs

13- The school computer lab network is a computer network

- A-opened network B- closed network C- World Wide Web WWW D- Intranet

- 14- The Egyptian Knowledge Bank EKB website is available on for free to all Egyptians.
- A- Various Applications B- World Wide Web C- Presentations D- Spreadsheets
- 15- A device connects a computer to an Internet Service Provider (ISP)
- A-Bluetooth B-Router C-Open networks D-Central Processing Unit (CPU)
- 16- is part of the Internet.
- A-Closed computer network B-World Wide Web (WWW)
C-Spam D-Router
- 17- Banks use networks to share their information.
- A-Opened networks B-Social networking sites
C-Closed networks D-Graphic programs
- 18- We use to communicate with each other.
- A-Scanner B-Mouse C-Computer networks D-Printer
- 19- gives people with disabilities more independence and increases their self-confidence.
- A-Printers B-Router C-Computer networks D-Camera
- 20- uses screen reader programs to do their homework online.
- A-People with motor disabilities B-Hearing impaired
C-Visual impaired D-Movement impaired
- 21- programs help the visually impaired write research papers on the computer.
- A- Printers B- Scanner C- Screen readers D- Microphone
- 22- Online shopping is called....
- A- Search B- Router C- E- commerce D- Speakers
- 23- Wi-Fi allows you to control devices connected to the Internet.
- A-Email B-Search Engines C-Internet of Things D-Social Media
- 24- To transfer data between wireless mobile devices, network technology is used.
- A-Scanner B-Pointer C-Bluetooth D-Control Panel
- 25- The last step in the steps of discovering and solving problems
- A- Identify the problem.
B- Study the possible solutions to the problem.

C- Find the appropriate solution to the problem.

D- Ask help from your teacher or a family member.

26- One of the suggested solutions in case the search engine is slow

A- Check the Wi-Fi connection

B- Buy a screen

C- Change the keyboard

D- Buy a printer

27- One of the ways to save and store information

A- Keyboard

B- Printer

C- Screen

D- Flash memory.

28- The folder on the computer can contain

A- Image and video files

B- Paper books

C- Paper letters

D- Pens and printed pictures

29- Sharing information over the Internet is considered.

A- Less secure.

B- More secure

C- More accurate

D- More reliable

30- To add the values in columns A, B, C in row 3, we write the formula

A- = A1+B2+C3

B- = A3+B3+C3

C- = A1+B2

D- = A1+A2+A3

31- Sharing information over the intranet is considered

A- Less secure.

B- More secure

C- Less reliable

D- Less accurate

32- To add cell A8 and cell B8, write the formula

A- = A8+B8

B- = A8-B8

C- = A8+B9

D- = C8+B8

33- helps to perform mathematical operations.

A- Paint program

B- Excel program

C- Virus program

D- Operating system program

34- To create a simple formula within Excel program, you must start by typing the sign in the cell.

A - &

B- \$

C- @

D- =

35- The folder on the computer can contain

A- Image and video files

B- Paper books

C- Paper letters

D- Pens and printed pictures

36- One of the ways to save and store information is using

A- Keyboard

B- Printer.

C- Screen

D- Flash memory

- 37- helps to perform mathematical operations.
 A- Paint program
 B- Excel program
 C- Virus program
 D- Operating system program
- 38- The last step in the steps of Troubleshooting to help with computer problems
 A- Identifying the problem.
 B- Go through your potential solutions to the problem.
 C- Think about and plan different ways you might solve the problem.
 D- ask your teacher or a member of your family for help.
- 39- All of the following methods enable you to keep your personal information safe except
 A- Limit the personal information you share online.
 B- Use strong passwords that contain letters, numbers and symbols.
 C- Use an antivirus.
 D- Share your name and address with all the sites that request it.
- 40- A hacker can send a virus to all the email addresses in your email if he can find out
 A- Your email address and password
 B- Your bank account number
 C- Your date of birth
 D- Your friends' addresses
- 41- is one of the Accessories devices used to store files securely.
 A- External hard disk. B- Keyboard. C- Mouse. D- Monitor.
- 42- Flash memory is used
 A- Print files. B- Back up your files. C- Photocopy files. D- Delete files.
- 43- Multi-Factor authentication (MFA) is
 A- Providing one way to identify yourself.
 B- Providing at least two ways to identify yourself.
 C- Not identifying yourself
 D- Providing a weak password
- 44- Phishing is
 A- Sending a text message.
 B- Sending a message via email and social media.

C- Calling by phone.

D- Spying on calls.

45- Scareware sites

A- They contain fake warnings about a problem with your computer.

B- Sites that offer you a fake prize.

C- Shopping sites.

D- Trusted sites.

46- If you fall victim to a Scam website

A- You should not tell anyone about it.

B- You should report the matter.

C- You should deal with them more.

D- You should trust the site

47- Public Domain and Creative Commons

A- They are sources on the Internet that are not covered copyright.

B- They cannot be used without the permission of their owner.

C- They are subject to copyright.

D- They take the international copyright symbol.

48- All of the following works are not covered by copyright except.....

A- Works that are classified as public domain.

B- Facts.

C- Creative works whose owner has died 50 years ago.

D- Works that have obtained the international copyright symbol.

49- Facts

A- They result from research and observation, and can be proven.

B- They cannot be proven.

C- Based on the person's views and experiences.

D- Cannot be proven

50- Opinions

A- Cannot be debated.

B- Result from research and observation and can be proven.

C- Based on the person's views and experiences.

D- Can be proven
